Hello Darrel,

I have attached the three designs we modified. I did have them draw up the 32"W desks, but I do not recommend them. With the 32"W desks you will not have any wiggle room side to side. You also will not have enough room to pull your seat all of the way up to them comfortably. Just food for thought on that.

Look these designs over, if all is well and you'd like to proceed please sign, date and scan the ones back to me that you'd like me to put into production.

- BCC7005 Podium \$275
- BCC7001 32" W Desk Set \$2070
- BCC7002 36" W Desk Set \$2093

All Delivery and installation by MCE Truck is free of charge.

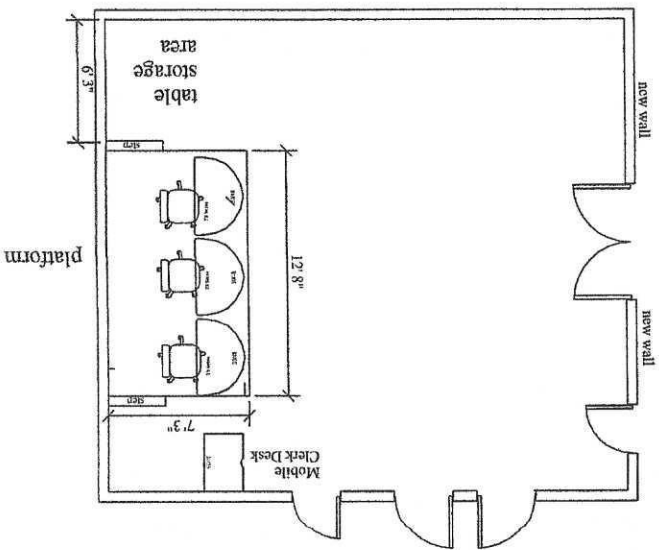

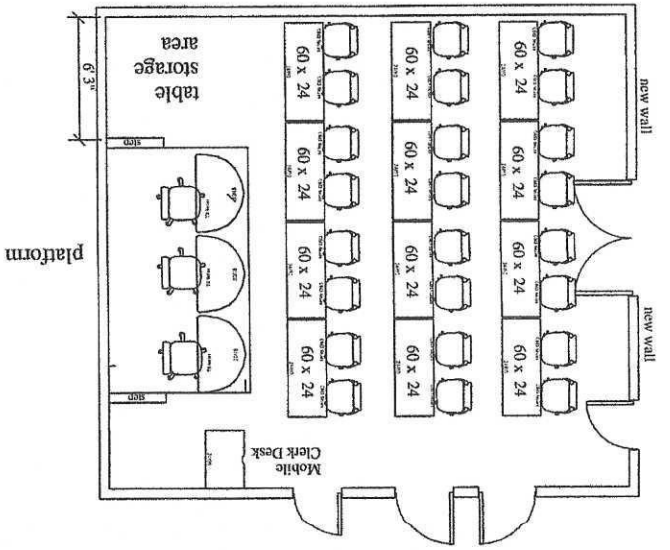

I hope you have a Merry Christmas!

Thank you,

Jonadel Ehret
